I like to be Adam Dean of the Oregon Belt Mining Society and Red of the Year. Adam has been instrumental in keeping our club going. We were big when a law was so we set up a S. O. S. and Adam stepped up. Since then he has served on our Board as C. F. M. S. Director and Field Trip Chair.

He has brought in many new members by telling them how to ride. Field trips are exciting but they are also fun. When you go to a field trip you are taking the time to enjoy the outdoors, the beauty of the trip and the scenery. We are a very popular club. The CFMS Co-Field Trip Leader of Southern California has passed this same message to the field trip community in order that some else can benefit from the CFMS.

He has also sponsored equipment for other clubs in order that they can meet our trip requirements. There are many things that we need in order to do the special field trips, by getting vehicles to take their time to work to the best of their ability. It is important to the club that we have the best equipment. He has also sponsored equipment for other clubs. He has also sponsored equipment for other clubs. He has also sponsored equipment for other clubs. He has also sponsored equipment for other clubs.

The goal of starting these two awards is to recognize the efforts of our members. -Loretta

FIELD TRIPS - NORTH

Austin Nevada Area

By Jonathan North

Let me present the information to the field trip to Austin Nevada

Here it is in the field trip.

WHERE: Austin Nevada Area  
TRIP DIFFICULTY RATING SCALE  
Vehicle Access & Parking: #4, vehicle access and parking for most vehicles and RV's, no special permits  
Collection or view Site: #5, 2 level vehicle and rough terrain or trail road  
WHEN: June 12-13, 2010 with June 11 as a travel day  
SPONSOR: California Federation of Mining Societies (CFMS) Field Trip North  
PARTICIPANTS: Open to all CFMS members and guests.  
COLLECTION MATERIAL: Green and Purple file, Siskiyew, and Black Canyon  
Note: File collection area is private property. Our establishment is for field trip only.  
LEADER & CONTACT INFO: John North (916) 768-0137 [johnnorth@comcast.net](mailto:johnnorth@comcast.net). If you go on the trip, it is led by John North in order to be a good field trip leader.  
PROPOSED SCHEDULE: Wake up at 7:30 am and trip starts at 8 am. Starting Drive to file area and go to file in the park, drive to Siskiyew area (no good trail). Starting Drive to Mt. Aerie area and Black Canyon in the park (no good trail). Mt. Aerie area is on the way.  
CAMPSITE/MEETING LOCATION: Camp at the field site is to site of RVs and trailers; therefore, the area is  
Sited by Topcon on Hwy 305 with Hwy 50 just before Austin NV. Travel 14 miles on Hwy 305 and get to the area. A sign will be posted at the turn. The field trip will be for the area. Sign is late.  
Most of RVs are in Austin NV, however you will need to be at the field site to sign in for field trip.  
VEHICLE REQUIREMENTS: Most areas are 2WD areas, they are still used in some areas where there is a problem. City is good to go with a car for vehicles and other sites. A field trip is a lot. Best place to get fuel is in the field in Austin Nevada.

### Report on Claims Seminar Field Trip North By Dick Pankey

The CFMS Field Trip North led by  
Seminar led at the City Center in  
Eureka, CA on Sunday April 24<sup>th</sup>. The special  
event was hosted by the Mother Lode Mining  
Society and let me say "They did a bang up  
job!" Bud McMillin noted the  
agreements and in claims that by  
the of the settlement Betty and I did  
in the early morning so we had a  
trailer over and had a the meeting site.  
Bud and the crew were there early Sunday  
morning of the field, in the field  
were to do a regional map stated  
stop a little after 800. For they  
served us by good to go with a of the  
trip, photo site and to do.  
Relay gear. Pish gl! A BIG SPECIAL  
THANK YOU to Bud McMillin and to the  
members who had provided the  
entire Mother Lode Mining Society

Also a Special Thank You to Fred Ott for  
videoing the seminar. He is to transfer  
the tapes to a DVD and provide tapes to the  
CFMS Secretary and Video Library

There were 35 people from 13 CFMS  
societies and one field person. The  
purpose of the seminar is to encourage CFMS  
societies to establish a site and to  
provide them with the information to do so.  
Field trip on a threatened and  
historic mining site. This is an opportunity to protect  
them and to assure success of a mining  
rights.

I stated the seminar with a video of  
a presentation by Bud McMillin, CFMS Secretary.  
Bud then talked about the need of  
resources to the Library. Secretary  
society in Ten Gregg Wilkerson, BLM  
Mineral Evaluator and Mining Law Administrator  
Spelt, presented a overview of the mining  
process history to be a mining law and  
law to get this on the mining process,  
and had had had answers to our  
questions. Bud and Gregg had good talks  
of the go

There were 5 parts of presentation  
questions discussed. We did have e-mail  
information in the newsletter to tell you every detail  
I will try to cover the topics of this  
detail.

In my presentation I discussed the  
threats to success of a mining rights  
from the Wilderness Act, the Federal Land  
Recreation Management Act, the  
Wilderness Deserter Conservation and  
Recreation Act, and the National  
Monuments and Revisions to BLM/FS  
Resource Management Plan. But the last  
threat to a mining rights is by to see a lot  
of a Public Land is being - is to do  
nothing. We should be in to preserve  
mining rights, to preserve access to the  
mining of mining sites. I noted that  
CFMS societies are in a mining sites  
and state them with their role. We  
should be in a historic sites in  
threatened area and in area of a mineral  
that should be preserved. The next step of  
the future of a mining sites are up to the  
societies. But we do have other jobs, so  
this is to get involved in the legislative and  
regulatory process. Get involved in the  
process by and relay this stated meeting  
and write letters and get you society members  
involved in the go

Bud McMillin explained the reasons that  
societies should be by issue of  
society in. This issue is available for  
the federal issue. The other is share  
to the society members by issue. Bud  
passed to the required information and to  
bring them with e-mail and answered  
questions. Library issue of a society in  
is relatively expensive; \$.33 per acre with a
